The Art Pros

The business is a well established husband and wife partnership which trades from rented premises as detailed above. The business has only been trading from these premises for the last 12 months. There are approximately 20 staff, a mixture of both full and part-time. The company's activities relate to the manufacture of artists' paint brushes which are then distributed to retail art shops.

County Court Judgement checks at the trading address reveal nothing detrimental, and we can further confirm a clear file at the partners home address.

Two established suppliers to the business have confirmed trading relationships in excess of 5 years. The first operates a credit limit of £5,000, this is normally sufficient for the level of monthly trade, and payments have never been a serious problem (net 30 day terms). A second supplier trades anywhere between £3,000/£4,000 per month, payment terms are end-of-month (following month of invoice), and these terms are adhered to.

The Art Pros is a well established operation, credit engagements can be favourably considered, and a ledger limit of £10,000 is advised.

ICC Information Full Reports are freshly commissioned and researched on demand. Returned within 2 to 3 working days of receipt of order, the Full Report provides a thoroughly investigated risk assessment of unincorporated businesses, newly formed companies yet to file accounts, or dormant companies that have recently recommenced trading.
